SKILLS

Programming Languages JavaScript, TypeScript, Golang, SQL

Other Tech HTML, CSS, Tailwind, ReactJS, NextJS, TRPC, Prisma, Git, HTMX

PROJECTS

[Bahamata Service](#)

NextJs, Prisma, Tailwind

Independently designed and developed a website for a motorcycle repair shop client. The project focused on showcasing the repair shop's services and establishing a section to exhibit the range of motorcycles available for sale.

[Art Store](#)

NextJs, Typescript, Tailwind

Developed and implemented Art eCommerce, an intuitive online platform for browsing and purchasing art. Utilized advanced search functionality to allow users to easily find art by category, resulting in a streamlined and efficient browsing experience.

WORK

[Full-Stack Developer](#)

09/2022 - Present

Worked closely with clients to build unique websites that suited their needs. Used a mix of coding languages to create user-friendly designs. Handled everything from start to finish, making sure projects were delivered on time. Stayed in touch with clients, giving updates and sorting out any questions.

[It Support Intern](#)

Assisted employees with troubleshooting common software and hardware issues.
Provided hands-on assistance in setting up printers, video cameras and other hardware.
Resolved hardware-related issues, such as printer malfunctions and camera connectivity problems.
